## PROFESSIONAL PROJECT EXPERIENCE

---

### LIGHTEN UP, CHICAGO!

**Data Viz Collaborative: SAIC & NU, Fall 2018**

*Collaborative Installation and Gallery Exhibiton*

- Collaborated with students from SAIC and Northwestern University in order to create a real-time temperature to color visualization
- Conceptualized, designed, coded, fabricated, and executed circuitry
- Marketed exhibiton with original posters and business card design
- Worked alongside gallery technician and coordinator to aid in show organization, coordination, and production
- Exhibited in "Refracting Data" at the Leroy Neiman Center in Fall 2018

### LEARNING BY PLAYING

**Imagining Tomorrow, Winter 2018**

*Collaborative Project for Rode Kruis Netherlands*

- Collaborated with students from Utrecht and Germany in order to address current social issues in Haiti
- Designed an interactive playground to inform and inspire youth in making Haiti self-sustainable via the Green Pearl Project
- Created the marketing materials including pamphlets, a 3D rendering, illustrations, and an informational presentation for the client
- Presented ideas and designs to president of the Rode Kruis Nederland

### ENTROPY

**Artbash Chicago, Spring 2018**

*Gallery Installation and Exhibition*

- Proposed site-specific gallery installation
- Worked with gallery team to meet both personal and exhibition goals
- Created thought-provoking audio visual in Adobe Premiere
- Fabricated installation housing out of wood and mirror
- Exhibited in "Artbash 2018" at the Leroy Neiman Center in Spring 2018
